Notes:

4 Production from the CMS Area has now ceased. Decommissioning works across this area are ongoing.

5 These fields are no longer producing. Decommissioning works are ongoing.

6 For the UK offshore area, fields that extend across more than one licence area with differing partner interests become part of a unitised area. The interest held in the Unitised Field Area is split amongst the holders of the relevant licences according to their proportional ownership of the field. The unitised areas in which Tullow is involved are listed in addition to the nominal licence holdings.

7 Refer to Gawain Unit for field interest.
